DETAILED ACTION

This office action is in response to applicant's amendment dated 7/26/2004.

Response to Amendment

1. Applicant's arguments, see amendment, filed 7/26/2004, with respect to Claims 1-6 have been fully considered and are persuasive. The rejections based on 35 USC 103 of Claims 1-6 has been withdrawn.

Allowable Subject Matter

2. Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of Chang et al. and Rich teaches a data log acquisition circuit that stores pattern address data for failed test patterns. However, the prior arts of record taken alone, or in combination failed to teach, anticipate, suggest, or render obvious the claimed invention or the method steps of the application. Specifically, the prior arts failed to teach, anticipate, suggest, or render obvious the limitation introduced into Claims 1 and 4, namely: a mode generator having multiple states where a particular state selects which range of addresses will be stored in the fail log memory, a specific range of addresses or failed addresses only. And consequently, since Claims 2-3 and 5-6 are dependent on Claims 1 and 4, the Claims 1-6 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John P Trimmings whose telephone number is 703-305-0714. The examiner can normally be reached on Monday through Thursday, 7:30 AM to 6:00 PM.
